

We'll send you \$5 Cash if you own a cart or wheelbarrow which will pass all of this basic 15 point test and it isn't one of our designs.

Practically every home has at least one cart or wheelbarrow, but it is absolutely amazing how few of them will be able to answer yes on all of these 15 points.

Unless you do have a cart or wheelbarrow which will pass on all 15 points, please mail the coupon below now so we can send you complete details and prices of the GARDEN WAY CARTS we make up here in Vermont.

## MARVELOUS GIFT IDEA!

This GARDEN WAY CART, Model 16, will pass the test with ease, as the fascinating sketches on this page show. Its delightfully clever, simple design is based on more than 20 years of intensive cart research and experience. It makes such a perfect gift because of its handsome, handcrafted quality, rugged and year 'round usefulness to the whole family. Will last for years and years. There's no other cart equal to it on the market.

No matter how many carts or wheelbarrows they already have, they'll be delighted to have another if it is one of these wonderfully different and better Vermont built GARDEN WAY CARTS! Please mail coupon below for complete details and attractive prices.

	Can you load it heavily, up front, without it suddenly flopping on its "face"? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>		Will it hold two full size trash cans or two standard bushel baskets? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>		Will it pull easily up steps or over obstacles without catching its legs and without dumping its load out forward? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>
	Is it narrow enough to go readily through standard doors, so you can enjoy using it indoors as well as out? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>		Is it handsome enough so you want it in the house? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>		Can you handle it with just one hand, without constant struggle to keep it from tipping over? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>
	Is it shaped to take a great big cardboard box for leaves and other such bulky loads? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>		Can you load it crosswise without having the load slide off forward? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>		Is it light and compact enough so it can be easily lifted, by non-giants, into a station wagon, for example? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>
	Is it designed to take full size garden tools, like hoes and rakes? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>		Is it low enough to be just the right height for gardening? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>		Is it rugged enough to take rough loads, such as two hundred pounds of dirt, sand, gravel or the like? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>
	Will it "stand on its head" to accept heavy loads, so you don't have to lift them? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>		Are its legs out of the way so they don't constantly bang your heels or shins? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>		Is it designed so you can balance a heavy load with just one finger, and so the axle carries the load, not you? <b>YES</b> <input type="checkbox"/> <b>NO</b> <input type="checkbox"/>

If you do have a cart or wheelbarrow which is not of our design and which you think passes on all 15 points, just send us a photo of it and we'll send you the \$5.00 cash if we agree. Of course we're pretty sure you don't have such a cart unless you built it yourself, because there isn't any other cart on the market which can match ours on all 15 points. If you did build your own and it will pass on all 15 points, we'll be delighted to pay off!

Seriously, no matter how many carts or wheelbarrows you now own, whether you bought or built them yourself, we're almost positive you'll want at least one of our's for yourself and perhaps several for gifts.

You'll like our prices, too — they're much lower than you'd expect compared to the prices of other carts. So please do mail the coupon now. Thanks very much for your interest.

# Now, for under \$70, Polaroid turns the sciences into snap courses.

It's done with the new Polaroid ED-10 Land Instrument Camera. It gives you instant classroom photomicroscopy. And it gives it to you at a price that puts it in a class by itself.

You get full-color pictures in a minute, black-and-white in seconds. And you get the same picture quality as with the most expensive instrument cameras (because they all use the microscope's optical system).

It fits any microscope, attaches in moments, and is easy to operate. You don't even have to know photography to use it. Just frame the subject in the scope; focus with the focusing tube; remove the tube and slip on the camera; and snap the picture. Seconds later, peel off a finished print.

The student gets what he sees. Without laborious sketching. (And he'll be developing more than a picture; he'll be developing an interest.)

It's a snap for the teacher, too. You can gain and hold attention better. Save classroom time. Demonstrate and make comparisons easier.

And you don't have to worry about that rough classroom handling. The ED-10 is molded of high-impact material to withstand it.

For more information, contact your scientific supply house or microscope dealer. Or write to: Polaroid Corporation, Industrial Marketing, Dept. 85-172, Cambridge, Mass. 02139.

Polaroid may help you ease the class struggle.
