Zoom microscopy with the new Series Sixty adds a new dimension to learning. With infinitely variable magnification, your students can scan a wide field at the lower magnification range and immediately enlarge any interesting area up to 500X for a closer look. It gives a unique incentive to explore the micro world!

Specially designed wide-field eyepiece, with built-in pointer, is color-free and assures a crisp image. It also has high eyepoint, a specific benefit for the person with eyeglasses.

Flat-field, infinity-corrected, zoom optical system provides exceptional optical performance. You'll see all detail in fine sharp focus.

There's built-in slide protection, too. Auto-focus stop and the retracting nosepiece eliminate damage to costly slides. Sturdy, student-proof design and construction assure many long years of reliable service.

For more information on the New AO Series Sixty Zoom microscope, contact your AO representative or write for our new booklet.
