preferred teaching machine...

for chemistry

Leading chemistry teachers throughout the country find the spectrophotometer almost indispensable. Because it's the basic tool of today's chemists, familiarity with its operation is as important as a knowledge of wet chemistry. It makes good sense to include its use in every good chemistry-teaching program. In every field . . . medicine, industry, environmental control, education . . . students are most likely to encounter the versatile Spectronic® 20. Over 85,000 are in use in laboratories around the world. With a wide spectral range of 340-950nm, the Spectronic 20 can perform more teaching procedures than any other spectrophotometer in its class. The narrow 20nm bandpass gives resolution to professional standards. The easy-to-use, hard-to-hurt Spectronic 20 is available from only \$395.

We've got the software, too. Send for our free packet, "Why the Spectronic 20 Belongs in Your Chemistry Teaching Program." Included are a Spectrophotometer Educational Manual and a representative detailed teaching procedure. Write Analytical Systems Division, Bausch & Lomb, 128 Linden Avenue, Rochester, New York 14625.

REDISCOVERED: THE FAMOUS, RARE LEEUWENHOEK MICROSCOPE

**Exact, authentic working replica
... Limited Edition in Gold electroplate
over Sterling, Sterling Silver, and
Solid Brass... commemorating the
Tricentennial of Leeuwenhoek's first
views of the microscopic world.**

It is generally accepted that the breakthrough to the hitherto unseen micro-biological world was through Antony van Leeuwenhoek's incredibly powerful microscope. Yet in all the world, less than 10 original Leeuwenhoek microscopes still exist today, cherished by the few museums and private collectors who own these masterpieces.

To commemorate the 300th anniversary of his famous observations, we have produced an exact replica in size and detail of the original microscope now in Holland's Leiden Museum, a type which was made by Leeuwenhoek in about the year 1673. A very limited number—only 150 replicas are now available in hallmarked 22K Gold electroplate over Sterling Silver, at \$295.00 ppd., plus only 500 replicas in hallmarked

Sterling Silver, at \$190.00 ppd., with each microscope having its own number engraved on front. Also available in hallmarked Solid Brass, at \$87.50 ppd. Each microscope ready to use, demonstrate, display, cherish as a rare investment. Also included:

1. Collector's bell jar for display and protection.
2. Reproduction of Leeuwenhoek's famous letter with translation, describing his observations, plus illustrated instructions for use of microscope to duplicate his experiments.
3. Certificate of authenticity from Leiden Museum.

HOW DOES THIS BOOK START?

(Quote from Manual)

"You can earn \$500, \$1000, \$5000, even \$50,000 per year by playing poker... yes, even more if you want to. Anyone can win consistently in any game by applying the *Advanced Concepts of Poker*.

This book is for the pennyante novice as well as the professional poker player; it is for anyone who will ever pick up a poker hand. Once familiar with the *Advanced Concepts of Poker*, your only limitation in winning money is the extent you choose to apply these concepts.

What is your goal in poker? Do you want to get rich, be the biggest winner in the game, gain confidence, punish another player, or just have more fun? Define what you want, then increasingly apply the *Advanced Concepts of Poker* until you reach your goal. How far should you go? ... That depends on you and your goals."

HOW DOES THIS GREEDY BOOK END?

"John Finn gains a large income by applying the *Advanced Concepts of Poker*. By maintaining the above system of games, he will earn over \$1,000,000 from poker over the next twenty years."

(End Quote)

YES—AND WIN (See p. 279)

OUR SOLID GUARANTEE

Wallace's copyrighted *Advanced Concepts* are the fastest and surest techniques for gaining unbeatable advantages over one's competition in poker (and any other competitive endeavor). If you do not agree, return the Manual in 10 days for full refund.

Rx Sports and Travel Reports:

"A lot of people who have always figured themselves to be poker players are going to find they belong with the ribbon clerks before they've read two pages of a new book by a plain-talking scholar."
 - "Starts in where the other poker manuals fold."
 - "Dr. Wallace demolishes many a cherished poker rule of thumb."
 - "If you're a poker player, this book would have to be the best \$12.50 investment you've made."

This 100,000-word manual is now available after many years of preparation by Dr. Frank R. Wallace. This book shows, step by step, how you can win considerable money by applying the "Advanced Concepts of Poker". This is what other reviewers are saying:

"Cutthroat. May shock the casual reader. One of the most readable and informative volumes to appear."
 New Haven Register
 "A valuable eye opener." Providence, Vancouver, B.C.
 "A definitive treatment. High degree of sophistication. Extremely pleasant to read."
 C. Financial Times

"If poker is your thing, then this is your book."
 Bookman's Weekly

"Concentrates on the most important aspect—winning!" The Book Exchange, London
 "Shows how to psycho-poker-analyze opponents, how to read them, and how to milk them to their last dollar." Amer. Bridge Teachers Assn. Quarterly
 "Designed for players who want to make poker a means of livelihood." Rouge et Noir News
 "A great course in the psychology of cards and the individual." Miami Star

HERE ARE A FEW OF THE 120 ADVANCED CONCEPTS REVEALED:

- How to be an honest player who cannot lose at poker.
- How to increase your advantage so greatly that you can break most games at will.
- How to avoid winning too fast.
- How to extract maximum money from opponents.
- How to keep big losers in the game.
- How to drive winning players from the game.
- How to lie and practice deceit. (Only in poker can you do this and remain a gentleman.)
- How to see unexposed cards without cheating.
- How to remember all exposed cards and ghost hands.
- How to read closed hands of opponents.
- How to beat dishonest players and cheaters.
- How to control the rules.
- How to stimulate poor attitudes in opponents.
- How to make a good player disintegrate into a poor one.
- How to manipulate opponents through distractions and hypnosis.
- How to locate or create new games for bigger and quicker profits.
- How to operate Major and Minor League games with a Farm System.

Any or all of the 120 "Advanced Concepts of Poker" can be mastered by using the unique DTC technique, which will allow you to control poker games and their players.

In addition to offering these powerful, money-making concepts, this book is an in-depth, definitive treatment of poker. The appendix, for example, contains the most complete glossary, bibliography, history... and the only accurately defined tables of odds ever published.

And, very important, the fundamental errors embraced by the 136 poker books published in the past ninety years are systematically pointed out in this radically different book.

This book is also crucial for defense... for protection against players secretly using these concepts to extract your money.
