"IN JUST 10 DAYS, I'LL SHOW YOU HOW TO DO

REAL MATH

ON YOUR SCIENTIFIC CALCULATOR!*

$$\int_a^b f$$

$$\frac{df}{dx}$$

$$\sum_{n=1}^x a_n$$

$$\lim_{n \rightarrow x}$$

•Quick.
•Easy.

•Guaranteed.
•Fun, too!

INTRIGUED BY CALCULATORS? Then you can step up your math skills fast! Use my new method in guidebook form. It's called **CALCULATOR CALCULUS** and comes with this guarantee: *If after 10 days you're not astounded at the problems you're solving on your own calculator, return the guidebook for an immediate refund.*

But the point is - you won't want to send it back. For this is the *easiest, fastest shortcut* ever! The day you receive your copy in the mail you'll want to put it to work. It's that exciting and helpful.

My name is Dr. George McCarty. I teach math at the University of California. I wrote this guidebook to cut through the confusion. It does just that — with worked-out examples, simple exercises and practical problems — all designed to work with precision and magic on your own calculator.

POWER METHODS. Need to evaluate functions, areas, volumes — solve equations — use curves, trig, polar coordinates — find limits for sequences and series? It's all here!

If you're in the biological, social or physical sciences, you'll be doing Bessel functions, carbon dating, Gompertz growth curves, half-life, future value, marginal costs, motion, cooling, probability, pressure — and plenty more (even differential equations).

Important numerical techniques? Those algorithms are here, too — rational and Padé approximation, bracketing, continued fractions, Euler's method, Heun's method, iteration functions, Newton's method, predictor-corrector, successive substitutions, Simpson's method and synthetic division.

LOOK AT WHAT USERS SAY. Samuel C. McCluney, Jr., of Philadelphia writes:

"**CALCULATOR CALCULUS IS GREAT!** For ten years I have been trying to get the theory of calculus through my head, using home-study courses. It was not until I had your book that it became clear what the calculus was all about. Now I can go through the other books and see what they are trying to do. With your book and a calculator the whole idea becomes clear in a moment, and is a MOST REFRESHING EXPERIENCE. I program some of the iterative problems you suggest and it

always GIVES ME A THRILL to see it start out with a wild guess and then approach the limit and stop."

Professor John A. Ball of Harvard College (author of the book 'Algorithms for RPN Calculators') adds:

"I wish I had had as good a calculus course."

Professor H. I. Freedman of the U. of Alberta, writing in *Soc. Ind. Appl. Math Review*, states:

"There can be no question as to the usefulness of this book... lots of exercises... very clearly written and makes for easy reading."

C. B. of Santa Barbara says: "Your book has given me much instruction and pleasure. I do not hesitate to recommend it. 'CALCULATOR CALCULUS' inspires the reader to understand everything down to the last detail. You have put your heart into the teaching."

I WANT YOU TO TRY THIS. So, if you act now, you can invest in 'CALCULATOR CALCULUS' for only U.S. \$14.95 (to USA or foreign: add \$1 for shipping, or \$4 by AIR; in Calif. add 90c tax).

***GET MY COMPLETE KIT,** with a TI-35 calculator, a 200 p. Student Math Book, AND the guidebook, ALL for \$39.95 (to USA only: add \$2 for shipping, or \$5 by AIR; in Calif. add \$2.40 tax). As pennywise Ben Franklin said, "An investment in knowledge pays the best dividends." **GET STARTED NOW** — Tax deductible for professionals.

NO RISK WHATEVER! Send for it today. Be sure to give me your complete mailing address with your check or money order. If you want to charge it (Visa or MC), tell me your card no. and exp. date. *Prompt shipment guaranteed.*

Thank you!

George McCarty

Take the Archaeology Library for only \$2.97

when you join the **Natural Science Book Club**

You simply agree to buy three more books—at handsome discounts—within the next 12 months.

Save \$66.93 Here's a fantastic opportunity to get this beautiful \$69.90 set of two oversized volumes for only \$2.97. Together they present a fascinating view of the development of mankind.

The Cambridge Encyclopedia of Archaeology. Edited by Andrew Sheratt. A comprehensive review of archaeology including the latest dramatic discoveries. Incorporating relevant work from all areas of the social sciences, this global account reconstructs the 2 million year process of cultural change which has taken man from hunter to astronaut. Each chapter is written by a specialist in the region or period. Over 400 maps and illustrations are presented—many in full-color. Also included are chronological charts and other reference materials. Publisher's Price: \$34.95

Discovery of Lost Worlds. Edited by Joseph J. Thordike, Jr. Twelve chapters written by nine foremost archaeology scholars. Vividly recreates the ancient cultures of Sumer, Egypt, Rome, Greece, China, the Celts, the Incas, the Vikings and prehistoric American Indians. Also includes short features on the search for the real King Arthur, the truth about the "shameless" Etruscan women and more. With more than 250 photographs, prints, maps, paintings and drawings. Publisher's Price: \$34.95

What is the Natural Science Book Club? A unique book club devoted to bringing you exciting, refreshingly different books on all areas of the natural sciences. From the life story of early man to the death of the solar system...from the largest mammals to the invisible kingdom of microscopic organisms...all the wonders of the natural world are revealed to members of the Natural Science Book Club.

MEMBERSHIP BENEFITS • In addition to getting the Archaeology Library for only \$2.97 when you join, you keep saving substantially on the books you buy. • Also, you will immediately become eligible to participate in our Bonus Book Plan, with savings of at least 70% off the publishers' prices. • At 3-4 week intervals (16 times per year) you will receive the Book Club News, describing the coming Main Selection and Alternate Selections, together with a dated reply card. • If you want the Main Selection, do nothing and it will be sent to you automatically. • If you prefer another selection, or no book at all, simply indicate your choice on the card, and return it by the date specified. • You will have at least 10 days to decide. If, because of late mail delivery of the News, you should receive a book you do not want, we guarantee return postage.

The original, indispensable

KLUGE BAG™

The "No-Waiter"

A six piece set in one easy to carry-on
...for overnight or around the world.

Two time TV Emmy Award Winner Stan Hart: "The Kluge Bag is the best. The only piece of luggage I ever use."

Pennsylvania cattleman Robert Johnson: "For quality, convenience, organization, the Kluge Bag tops any set of luggage I've ever used."

DRG Record Company President Hugh Fordin: "One carry-on piece sure beats three or four check-in bags. I'm delighted."

Here's the famous original you'll see on the Concorde, the Air-Shuttle to Washington, the commuter out of O'Hare. The Kluge Bag. The only combination overnighter and fortnighter in the world.

And the only bag that's as easy to carry to the last airline gate with a complete wardrobe as it is with a single change of clothing.

A "no waiter" you never check in. Never have to wait for at the baggage counter.

Extra Comfort and Convenience

You'll use the Kluge Bag like a week-ender, too, because it's just as easy to carry on and a whole lot better. Better because nothing gets wrinkled or creased... because you have extra room for all the reports and papers you need, the tennis things you may or may not use, the sweater you'd like to be able to knock around in at night, and to bring back anything from reports to a new suit you pick up on your trip. (You can prove it yourself at our risk!)

Beautifully Organized

The almost infinite flexibility is the result of an organization system designed by Peter Kluge, an international businessman, who travels constantly, from Chicago to Dallas, New York, Los Angeles, to Europe and the Middle East, never sure if he'll be away two days or two weeks, or of the clothing he'll need.

So, in one lightweight, compact, easy-to-carry handle or shoulder bag you get (1) a garment bag that holds two suits, (2) a pullman case, (3) a week-ender, (4) a tote-tennis bag, (5) a toilet-accessories kit, (6) a laundry-wet stuff bag... plus a full-size portfolio. Compartmentalized for easy access to your shirts, ties and belts; shoes and socks; underwear; suits, slacks and jackets; sportswear, sweater, bathrobe; business reports and papers. Anything and everything you need.

One Vs. Two, Three or Four

You can't even begin to compare the ease and convenience of the Kluge (rhymes with huge) Bag with the bulky, heavy, loaded-down check-in luggage you usually carry on trips of three, four or more days.

The Kluge Bag alone easily outcarries a garment bag, a weekender or pullman plus a dispatch case. It not only looks better, weighs less, it's also much easier to carry and leaves your hands free to get your wallet or ticket. The Kluge Bag comes with a specially designed hook which allows you to hang it in the garment compartment of the plane. Most important of all, only the Kluge Bag is always ready when you are to get off the plane.

Top Quality Construction

Simply, there's no other piece of luggage anything like this. Beautifully made of top-quality rayon, the material that's most often used in expensive luggage today because it's as strong as it is light, and will retain its beauty through years of use and abuse, the Kluge Bag is available in natural canvas color with rich brown piping and in striking solid black diamond and brown trim.

Outside there are three sectional zippers, so you can get to anything in a second, with security snap locks and an over-all snap lock safety strap, plus comfortable carrying handles and the adjustable burden-bearing shoulder strap.

Inside, a fold-up rigid bottom supports everything you can carry in the zippered main compartment. The fittings and details are equally impressive, like a tie rack, a fitted compartment for toiletries, a zippered compartment for valuables, pockets for cards, notes, keys and more. Plus a huge

Unique Shoulder Carry System

volume portfolio. Everything you need to make packing and traveling for days or weeks easier and faster than it's ever been before. Yet fully packed the Kluge Bag is just 18" high by 23" long and 12" deep.

Only \$49.95!

Most extraordinary of all, though, is the price. At \$90 and \$100, which is the price you'd probably have to spend in a fine retail store, the Kluge Bag would be an excellent value. At \$49.95 plus \$3.60 shipping and handling, it's absolutely unbeatable.

A price that's possible because we're able to commit for an entire manufacturing run, and to eliminate salesmen, distributors and retailers and their costs by selling direct.

No Risk Trial

Now we invite you to try the Kluge Bag for yourself — for 30 days without risk or obligation. Don't worry about how you handle it. Nothing will hurt it. You must be convinced that it's the finest, most useful, convenient and versatile piece of luggage on the market today, a time and trouble saver, the perfect piece for every trip, or return it for a complete refund. No questions asked.
